

# Additional Product Changes

TPP Release 1

14<sup>th</sup> February 2025

# Version Control

Version	Date	Description	Author
1.0	14 <sup>th</sup> February 2024	First published version of document.	Kate Stavrides

# Document Purpose

This document forms part of the TPP Client Support Workstream.

This document provides supplementary guidance in relation to wider product changes made to support TPP

It is designed to be used alongside the wider suite of client support documentation provided as part of the TPP project

# Supporting documentation

Alongside this document, Atamis has provided the following additional resources:

## **Notices:**

- Updated notice build specifications (based on Cabinet Office Release 9)
- Updated notice submission validation and linking rules (based on Cabinet Office Release 9)

## **Procurement Templates:**

- Updated template specifications

## **CDP Integration and Supplier Information:**

- Updated Central Digital Platform – Integration and Supplier Information documentation
- Supplier Information Test Data and Share Codes

# Important Information

This document has been provided based on the current TPP build and the information available at the time of the Atamis TPP Release 1.

As further releases are finalised and delivered, the details included may be updated and expanded.
